EDUCATION

Texas A&M University | College Station, TX

Expected in May 2028

BS: Computer Science | Minor: Engineering Entrepreneurship | Craig & Galen Brown Engineering Honors

Relevant Coursework: Program Design and Concepts (CSCE120), Discrete Structures (CSCE222), Programming in Python (ENGR102)

Honors: National Merit Finalist | Top 1% of 1.5M+ seniors | President's Endowed Scholarship

TECHNICAL SKILLS

Languages & Frameworks: Java, Python, TypeScript, React, HTML, CSS, C++

Tools: GitHub, Visual Studio Code, Figma, Firebase, REST APIs, Premiere Pro, Photoshop, Canva, Excel, Word, PowerPoint

EXPERIENCE

DriveDrop

Plano, TX

AI Engineer Intern

June 2026 - August 2026

- Architected **multi-agent AI** framework using Qwen 2.5 and LoRA fine-tuning on Apple MLX, classifying user behavior (time on page, clicks, image views) into cold/warm/hot lead tiers to evaluate lead quality with **99% model accuracy**
- Conceived, designed, and deployed interactive Dummy Mode dashboard, using React state management and accessible UI abstraction to streamline product specialist demo calls, cutting demo times by **40-65%** and driving higher B2B conversion rates
- Engineered high intent **Meta advertising** campaigns for the SaaS startup, generating **875+** qualified vehicle buyer leads at an \$8.52 cost per lead (CPL) while scaling top performing dealership campaign to 67 leads at a **\$4.12 CPL** over two weeks

CodeGana

Founder

August 2025 - Present

- Grew platform to **20,000+ impressions** by building a full-stack web app using **React**, TypeScript, and **Firebase**, with REST API integration for real time user progress tracking across interactive coding challenges and projects
- Reduced onboarding friction for **1,500 users** by designing a responsive UI, applying **hash tables** to optimize content routing
- Accelerated content reach by producing short-form Python tutorials on YouTube Shorts and Instagram Reels, synthesizing platform lessons into digestible segments that drove measurable community growth

FLiNT

Project Member & Staff

College Station, TX

August 2025 - Present

- Earned 1st place in intra-organization pitch competition by proposing a **\$1,000** engineering project to faculty for a semi-autonomous vehicle, integrating **Google Coral TPU**, dual-camera sensors, and microcontroller systems for real-time control
- Increased website engagement for **200+** annual visitors by relaunching our Texas A&M club website with improved UX

TechMeKid

Front-End Development Intern

June 2025 - July 2025

- Generated a **30% increase** in page impressions by leading development of events page, translating **Figma prototypes** into responsive and accessible layouts using HTML, CSS, and JavaScript
- Shipped features across **20+ developer** team by coordinating through GitHub pull requests and Agile code reviews on Slack

NeuralSeek

Agent Development Intern

July 2025 - September 2025

- Reduced manual playlist migration time to near zero by building and deploying a functional **AI agent** that parses YouTube Music playlists and converts them to structured .txt output files
- Earned Level 2 AI Agent Builder Certification by completing hands-on training in generative AI and **prompt engineering**

Verses & Vibes Nonprofit

Web Developer & Outreach

June 2025 - January 2026

- Drove **20+ weekly visits** by designing and launching nonprofit's promotional website and volunteer sign up flows via HTML/CSS
- Expanded organizational reach by starting the Dallas chapter at Rambling Oaks retirement home, coordinating outreach logistics

Kumon

Center Assistant

Flower Mound, TX

December 2022 - December 2024

- Earned **2 promotions** over two years by consistently improving student outcomes, teaching math from arithmetic to calculus to students aged 5-16, using Kumon's proprietary software and Excel tracking
