Education

Texas A&M University College Station, TX

Bachelor of Science in Computer Science, Minor in Engineering Entrepreneurship *Expected May 2028*

Relevant Coursework: Data Structures & Algorithm, Object Oriented Programming & Functional Languages, Program Design and Concepts, Discrete Math, Computer Organization

Honors: Craig & Galen Brown Engineering Honors | National Merit Finalist | President's Endowed Scholarship

Technical Skills

Languages & Frameworks: C++, Java, Python, TypeScript, React, SQL, HTML, CSS
Tools: Git, GitHub, CI/CD, Visual Studio Code, Figma, Firebase, AWS, Agile, REST APIs, Excel, Word, PowerPoint

Work Experience

DriveDrop June 2026 - August 2026

AI Engineer Intern *Plano, TX*

- Architected **multi-agent AI** framework using Qwen 2.5 and LoRA fine-tuning on Apple MLX, classifying user behavior (time on page, clicks) into cold/warm/hot lead tiers to evaluate lead quality with **99% model accuracy**
- Streamlined product specialist demo calls and increased B2B conversions by cutting demo times by **40-65%**, via engineering an interactive Dummy Mode dashboard using React state management and accessible UI abstraction
- Engineered high intent **Meta advertising** campaigns for the SaaS startup, generating **875+** qualified vehicle buyer leads at an $8.52 cost per lead (CPL) while scaling top performing dealership campaign to 67 leads at a **$4.12 CPL** over two weeks

CodeGana August 2025 - Present

Founder *College Station, TX*

- Grew platform to **20,000+ impressions** by building a full-stack web app using React, TypeScript, and Firebase, with **REST API** integration for real time user progress tracking across interactive coding challenges and projects
- Reduced onboarding friction for **1,500 users**, through applying **hash tables** and GitHub Actions **CI/CD** to optimize automated content delivery
- Accelerated content reach by producing short-form Python tutorials on YouTube Shorts and Instagram Reels, synthesizing platform lessons into digestible segments that drove measurable community growth

FLiNT August 2025 - Present

Project Member & Staff *College Station, TX*

- Earned 1st place in intra-organization pitch competition by proposing a **$1,000** engineering project to faculty for a semi-autonomous vehicle, integrating **Google Coral TPU**, dual-camera sensors, and **microcontroller** systems for real-time control
- Increased website engagement for **200+** annual visitors by relaunching our A&M club website with improved UX

NeuralSeek July 2025 - September 2025

Agent Development Intern *Highland Village, TX*

- Reduced manual playlist migration time to near zero by building and deploying a functional **AI agent** that parses YouTube Music playlists and converts them to structured .txt output files
- Earned Level 2 AI Agent Builder Certification via hands-on training in generative AI and **prompt engineering**

TechMeKid June 2025 - July 2025

Front-End Development Intern *Highland Village, TX*

- Generated a **30% increase** in page impressions by leading development of events page, translating **Figma prototypes** into responsive and accessible layouts using HTML, CSS, and JavaScript
- Shipped features across **20+ developer team** by coordinating through GitHub pull requests and **Agile** code reviews on Slack

Verses & Vibes Nonprofit June 2025 - January 2026

Web Developer & Outreach *Flower Mound, TX*

- Drove **20+ weekly visits** by designing and launching nonprofit's promotional website and volunteer sign up flows
- Expanded organizational outreach by starting the Dallas chapter at Rambling Oaks retirement home
